Poniżej instrukcja jak dokładnie sprawdzić modele które występują w danym oprogramowaniu

Należy zalogować się na portalu mykeyspro.com (jeżeli jeszcze nie posiadasz konta należy się zarejestrować)

Po zalogowaniu należy przejść do zakładki Catalogue a następnie wybrać poniżej Programming Software

Z menu po lewej należy wybrać interesujące nas oprogramowanie.
Po naciśnięciu Search otworzy się lista obsługiwanych modeli w danym oprogramowaniu.

The screenshot shows the 'Programming Software' interface. On the left, there is a search filter menu with the following options:

- Make: All
- Region: All
- Product Type: All
- Part Number: ADS2261
- Part Number: ADS2261 - Volvo (selected)
- Search button
- Display Result As: Vehicle List

On the right, there is a table of results for the selected part number. The table has the following columns: Model, Variant, Regions, Start-End, Part Number, Engine Code, Engine Size, Fuel Type, Key Type, and Program Transpon. The table contains 8 rows of data, all for Volvo models.

| Model | Variant | Regions | Start-End | Part Number | Engine Code | Engine Size | Fuel Type | Key Type | Program Transpon |
