

# AQUA SPEED

SWIMMING ACCESSORIES

A swimmer is captured underwater in a swimming pool lane. She is wearing a black one-piece swimsuit with a yellow and purple diagonal stripe, a purple swim cap, and purple goggles. Her right arm is raised, and she is looking towards the camera. The pool lane is marked with blue and white lane lines. The water is clear and blue.

PRODUCT CATALOGUE 2020

# INTRODUCTION:

Thank you for your interest in our offer.

Our company mission is to provide clients with the widest possible variety of swimming and snorkeling gear in a range of colours, designs, materials and prices. Our products are made by the world's best factories using modern designs and advanced technology, taking into account international trends. The high quality materials and fabrication used in AQUA SPEED products have made us one of the leading brands operating in the Polish swimming equipment market. Now our main goal is to promote the image of our brands and their popularity among clients. This task is fulfilled by a team of highly qualified workers and sales representatives. Our policy includes immediate delivery of orders and returns.

**AQUA SPEED**  
SWIMMING ACCESSORIES

This catalogue has been divided into sections. Each of which is marked with different colour as shown below:

WOMENS SWIMWEAR

SWIMMING TRUNKS

ONE-PIECE GOGGLE

ADJUSTABLE GOGGLE

CAPS

POOL SHOES

ACCESSORIES

INFLATABLES ACCESSORIES

Each product has its name and code, for example:

**ADRIA 001-XX**, this name consist of:

**ADRIA** - -name of the product

**001** - catalogue number of the product

**XX** - number or name of the colour, if the product comes in various colours.

Placing an order you need to specify name or catalogue number of the product as well as its colour number or name if it has such.

Our products are made of high quality, hypoallergic materials

Each product in the catalogue has been characterized. Additionally swimwear and goggles are described by some of the below features:

Pictures showing individual features of goggles:

Pictures showing individual features of fabrics used in swimwear:

Our swimwear is made of Italian fabrics by Carvico which specializes in the high quality sports fabrics. Below you will find descriptions of Carvico fabrics used in our swimwear.

**VITA** This swimwear is made of innovative Vita fabric. This hi-tech fabric is UV-and ultra-chlorine resistant, flat and very soft, pleasant in touch and comfortable to wear. VITA provides great muscle control (reduces production of lactic acid in muscles) for enhanced swim training and performance. It also boasts great shape retention and coverage. Its great durability and resistance to fibre breakage (when exposed to chlorine for long periods of time) gives it an extra-long pool life without significant loss of properties. VITA is also highly resistant to degradation from sun creams and oils, which makes it perfect for beachwear. Made of: 22% Xtra Life Lycra® fibre, 78% Regenerated Polyamide.

**DARWIN** is comfortable and chlorine-proof, with total protection against UV rays (UPF 50+). Thanks to its unique composition, Darwin guarantees optimal breathability and is fast-drying. Elastic and durable with a perfect fit, Darwin is ideal for water sports in general (even the most extreme ones like surfing, kayaking, wakeboarding, etc.). It was created for the world of competitive water sports since it can satisfy the most demanding expectations.

**REVOLUTIONAL ENERGY** is a techno-fabric with a high shaping power, it is the heaviest fabric of the Revolutionary™ family. The muscular compression guaranteed by the extraordinary elasticity of the fabric, decreases the production of lactic acid, reduces muscular strain and improves athletic performance. All the prestigious certifications obtained with reference to its quality and performance state it is a very versatile fabric, suitable for several, different applications.

**MALAGA** is an opaque fabric that offers the perfect balance between light weight and elasticity. Resistant to pilling and UV rays (UPF 50+), it is ideal for beachwear and fulfils the highest technical requirements for the sportswear sector.

# RAPID MIRROR 193-XX

racing goggle

Aqua Speed RAPID MIRROR goggles are designed for racing and training, as their uniquely shaped lenses provide improved water flow and reduced drag. RAPID MIRROR feature a comfortable soft TPE gasket made using ultraFUSE technology, with 5 sizes of interchangeable nose bridges and a quickFIT rear buckle. All this makes RAPID MIRROR goggles durable and easy to adjust for a leak-free fit. Metalized, UV-protected, impact resistant polycarbonate lenses coated with an Anti-Fog layer guarantee panoramic vision and glare reduction. Due to their durability and unique design, RAPID MIRROR goggles are the perfect choice for intensive swim training, racing and triathlons.

## Features:

- Metalized optical grade polycarbonate lenses
- UV and Anti-Fog protection
- QuickFit ultra-fast rear buckle
- Soft TPE gasket made using ultraFUSE technology
- 5 interchangeable nose bridges (XS,S,M,L,XL)
- Exchangeable, split head strap

ADJUSTABLE GOGGLE

# BLADE MIRROR 060-XX

one-piece

The Aquaspeed BladeMirror goggle has been designed for both performance swimming and swim training. These revolutionary goggles feature soft one-piece gasket for good fit and no leaks. Two-piece strap with the UltraFast buckle on the back of the head that will give you a precision fit, easy adjustment (no need to take your goggles off thanks to the special buckle) and will prevent the loose ends of the strap from dangling around your face. Curved lenses provide wide field of vision and extended gasket (PU side belts) makes Blade goggles more hydrodynamic. Mirror coating increases glare protection. All the special features and cutting-edge style of these goggles as well as the variety of exciting colour variations they come in will make you stand out at the pool.

Features:

- Sports style curved lenses provide wide vision, injected polycarbonate lenses ensure impact resistance
- 3D gasket design-revolutionary 3D gasket that perfectly fit the face
- Made using UltraFUSE technology
- Soft TPE gasket provides very comfortable fitting
- Side PU belt for improved hydrodynamics
- Double silicone headstrap for secure fit during racing
- UltraFast quick fit rear buckle system
- Mirror coating to minimise glare
- UV protection
- Embedded Antifog

ONE-PIECE GOGGLE

# X-PRO 087-XX

one-piece

X-PRO goggles provide a very secure (due to low volume of air inside the goggles), high comfort and leak-proof fit for all face shapes. The gasket of those one piece goggles is made of extremely soft, non-toxic silicone made from LRS (Liquid Silicone Rubber) to provide exceptional durability and comfort. LRS is extremely long-lasting and damage resistant, retaining elasticity normally lost when exposed too high and low temperatures and UV rays. The slightly curved, specially-prepared lenses made from damage-resistant Hard High Grade Polycarbonate have Anti Fog and UV protection, giving superb vision with a fashionable look. The lens shape is highly hydrodynamic, great for rough water, and the racy design is very close to the face helping to eliminate vibrations created by water flowing over the goggles. X-PRO goggles feature an easy and quick-to-use Easy Clip buckle for regulating the double head strap, mounted directly to the silicone skirt for greater convenience and comfort. Available in many exciting colour variations X-PRO are A great pair of goggles for swim training and fitness swimming for teenagers and adults alike.

ONE-PIECE GOGGLE

# BORA 077-XX

one-piece

AQUA SPEED  
SWIMMING ACCESSORIES

The BORA mask-goggles from Aquaspeed offer excellent vision and watertight seal for swimming and watersports.

The gasket of these one piece goggles is made of extremely soft, non-toxic silicone made from LSR (Liquid Silicone Rubber) to provide exceptional durability and comfort. LSR is extremely long-lasting and damage resistant, retaining elasticity normally lost when exposed to high and low temperatures and UV rays. These LSR goggles offer a very secure (due to the low volume inside the goggle and materials used), high-comfort and leak-proof fit for all face shapes.

The large specially prepared lenses made of damage resistant Hard High Grade Polycarbonate feature Anti Fog and UV protection, superb field of vision and fashionable look. The goggle shape is highly hydrodynamic, great for rough water, and the sporty design keeps close to the face helping to eliminate vibration created by rapid speed in the water.

BORA goggles have easy and quick-to-use QuickFit strap buckles which help quickly and precisely adjust the length of the strap to maximise comfort. BORA are available in six exciting colour combinations, some of which feature tinted and some clear lenses. Thanks to its features, BORA goggles are a perfect choice for both indoor and outdoor swimmers who value comfort and who require excellent field of vision.

ONE-PIECE GOGGLE

# SIROCCO 042-XX

one-piece

The SIROCCO mask-goggles from Aquaspeed offer excellent vision and a soft, one-piece watertight silicone seal for swimming and watersports. Their gasket is made of extremely soft, non-toxic silicone made from LSR (Liquid Silicone Rubber), to provide exceptional durability and comfort. LSR is extremely long-lasting and damage resistant, retaining elasticity normally lost when exposed to high and low temperatures and UV rays.

The clear, curved lenses of SIROCCO provide outstanding peripheral vision without any distortion caused by their shape. In addition, the lenses are covered with a layer of the Anti-Fog film and feature UV protection. These qualities make SIROCCO ideal for indoor and low-light outdoor conditions.

This mask will revolutionize your swimming by adding fit, functionality and comfort. The scuba gear quality silicone used for the skirt and the wide strap guarantee a comfortable, watertight seal and stability. The easy-to-use Easy Clip buckles let you concentrate on your watersports, rather than worry about having to endlessly adjust the fit of your equipment.

racing goggle

The Blast Goggle from Aquaspeed is a comfortable racing goggle. These goggles have ultra low-profile tinted lenses with Anti-Fog and UV protection. Their soft silicone gasket guarantees perfect fit and their double-band silicone headstrap is specially sculpted to make Blast particularly easy to put on. The UltraFAST, easy-to-adjust, rear buckle fitted to those goggles allows the swimmer to quickly and precisely adjust the length of the strap. The lenses of Blast are joined together by an interchangeable plastic nosebridge that comes in four sizes to allow the user to adjust the distance between the lenses. These FINA Approved modern swim goggles are ideal for racing and performance swimming, as well as training and fitness swimming.

### Features:

- FINA Approved -Racing lens size 37mm
- UV protection
- Optical grade polycarbonate lenses
- Ultra soft silicone seal without skirt to reduce hydro resistance
- UltraFast quickFIT rear buckle system
- 4 interchangeable nose pieces
- Double silicone headstrap for secure fit

# MODE 080-XX

adjustable junior

Modern two-piece swimming goggles for children, Mode from Aquaspeed feature separate lenses joined together with an exchangeable nose bridge (in 3 sizes). Such construction allows Mode to be adapted to different facial profiles, including those with a wider nose base. Soft silicone gasket provides excellent suction without too much pressure and a double silicone headstrap with regulation offers excellent and accurate fit. Mode features tinted lenses with Anti-fog and UV protection. Excellent for frequent outdoor and indoor use. Mode are available in three exciting colour variations.

## PROFI 090-XX

PU(poliurethane)-coated swim cap from Aquastpped for Adults, PROFI is made from high-quality shaped Lycra, with a PU coating on the outer surface which makes it water repellent and durable. PROFI is comfortable. Thanks to the Lycra layer on the inside, PROFI does not pull on the hair, is especially easy to put on and take off and is lightweight and tear-resistant.

---

## EAR CAP 128-XX

EAR CAP is an excellent solution for swimmers that require maximum comfort while swimming. This stretchy cap, made from 100% highest-quality silicone features special pockets for the ears, thanks to which the pressure on the ears is much smaller than when using a traditional cap. EAR CAP fits to the head comfortably and is available in several colors.

# MEGA 100-XX

Super soft silicone  
"Super stretch"  
Great fit  
Very elastic

---

# BEST 109-XX

New and innovative solution -  
lycra silicone coated cap  
Tear resistant  
Durable

# FLASH

089-XX

Characterised by its unique style, this PU(poliurethane)-coated swim cap from Aquastpped for Adults, FLASH is made from high-quality shaped Lycra, with a PU coating on the outer surface which makes it water repellent and durable. FLASH is comfortable. Thanks to the Lycra layer on the inside, FLASH does not pull on the hair, is especially easy to put on and take off and is lightweight and tear-resistant.

---

# FLUX

143-XX

FLUX from AQUA SPEED is a PU(polyurethane)-coated swim cap for adults, which is characterised by the unique eye-catching styling. The interior of the cap is made from high-quality shaped fabric, ensuring that the cap is comfortable to wear and that it does not pull the user's hair. FLUX combines the best qualities of standard fabric cap with water-repelling properties of PU and is also light and tear-resistant.

# BOMBASTIC TIC-TAC

## 117-XX

Women's BOMBASTIC TIC-TAC swim cap from Aquaspeed is a perfect choice for ladies with long hair who are looking for a roomy and comfortable fit. Available in a variety of colours, Bombastic Tic-Tac is also a must-have for style-conscious swimmers. Thick rubber material the cap is made of, as well as air-filled bubbles on the cap mean that this piece of headgear is warmer than a standard cap, so it is perfect for use in open waters and outdoor pools.

---

# 3D CAP

## 092-XX

3D cap is an ultimate new racing cap from Aquaspeed. Made of 100% silicone, this seamless cap provides a wrinkle-free, secure fit that gives you a hydrodynamic shape and reduces friction and drag in water. Additionally, the 3D Cap is specially reinforced in its top part to guarantee excellent fit and increased durability. Perfect choice for performance swimmers.

## SMART 103-XX

100% extra stretchy silicone

Seamless

perfect choice for those who value comfort  
and with longer hair

---

## SOFT LATEX 122-XX

This Super Soft Latex Cap from Aquaspeed is a good choice for adult and junior swimmers who are looking for an alternative to silicone caps. Available in a variety of colours, including bright fluorescent colours, this cap is made from biodegradable latex. This cap is lightweight, soft, comfortable and easy to wear.

# BLOOM CAP

105-XX

BLOOM rubber cap is a real eye-catcher. Its foam rubber seal provides good fit, yet the cap is roomy and comfortable – perfect for users with longer hair. The thick rubber material the cap is made of, as well as air-filled bubbles on the cap, mean that this piece of headgear is warmer than a standard cap, so it can be used in open waters and outdoor pools.

---

# RUFFLE CAP

095-XX

This lovely Ruffle Cap from Aquaspeed will add style and fun to any water experience. This cap, covered in colourful frills, is made using a lightweight polyester fabric. Plastic lining and a broad elastic band on the bottom guarantee perfect fit and protection for the hair on the beach and in the pool. However, this cap does not provide watertight seal and does not guarantee to keep hair completely dry. This lovely cap, available in six stylish colour variations, is certain to give you feminine and glamorous look at the beach or pool. The Ruffle cap offers comfortable one size fit.

## LADIES CAP

096-XX

This stylish Ladies Cap from Aquaspeed is a polyester fabric turban style, lightweight swim cap with a feminine look. Plastic lining and velcro closure at the back and broad rubber band and seal provide perfect fit and protection for the hair on the beach and in the pool, but is not guaranteed to keep hair completely dry. Ladies Cap comes in five lovely colour combinations making you look ladylike and elegant when enjoying water.

---

## SHOWER CAP

094-XX

This Shower Cap from Aquaspeed is made of polyester fabric and with a foil inner cap and broad rubber band and seal. Made to keep hair tucked away while using the pool, it will also keep hair dry in the shower. While it's not waterproof, it is water resistant to help keep hair dry. This cap, available in five lovely colours, will give you feminine, elegant look while you enjoy a leisurely swim. It's easy to put on and easy to take off, with a one size fit.

# LADIES TURBAN

093-XX

This turban style cap from Aquaspeed is made of towel like material (Terry cotton) consisting of cotton and polyester. Soft and cosy, it will protect your hair in the sauna, by the pool side or on the beach. Due to material used it is not meant to keep hair dry in the pool and it is not recommended for use in the water.

It's easy on and easy off, with one size fit.

---

# POLYESTER CAP

091-XX

This Polyester swim cap from Aquaspeed is porous and lightweight – ideal to keep hair out of the way. Thanks to the used fabrics it is soft and comfortable and can even be used under latex or silicone caps to prevent the hair being pulled. This piece of headgear is a particularly good choice for swimmers with long hair.

# DUFFLE BAG

141

Size:

M (48cm x 25cm x 29cm)

L (55cm x 26cm x 30cm)

Fabric: 100% Polyester

Duffel bag from Aqua Speed is an excellent choice for all who enjoy an active lifestyle, especially for those who practice water sports. Despite being very light, the bag is durable and robust in everyday use.

The main compartment of Aqua Speed duffel bag is reinforced at the bottom and easily accessible. The flap protecting the main compartment is closed with a U-shaped two-way zipper with ergonomic pulls.

Aqua Speed duffel bag features two side compartments, with one of them being vented and much larger, perfect for transporting wet pool shoes or swimwear.

The bag is fitted with 4 "feet" at the bottom, as well as double grip and a wide adjustable shoulder strap.

Aqua Speed duffel bag is made from 100% polyester and is available in two sizes and a range of colours.

## SET FISH

088-XX

This fun cap and goggles set will be a perfect surprise for any pool loving kid. Soft silicone character cap combined with colourful silicone goggles will make any water experience much more fun.

Character cap:

This kids' fun 100%-silicone swim cap from Aquaspeed has a funky shark or fish design in 3D with fin and fishtail and will protect your child's hair. A great fun item that will enhance children's fun time in the pool. This cap is made of very stretchy material, making it very easy to put on and take off.

Goggles:

Unibody swimming goggles for children, these goggles feature separate lenses joined together with a flexible nose bridge. Such construction allows those goggles to be adapted to different facial profiles, including those with a wider nose base. Soft silicone gasket provides excellent suction without too much pressure and a double silicone headstrap with Easy Clip regulation system offers excellent and accurate fit. These goggles feature lenses with Anti-fog and UV protection. Excellent for frequent outdoor and indoor use.

# NEOPREN GLOVES 174

Size: S,M,L,XL

These aquafit gloves create water resistance making it hard for you to move your arms through water, building up the strength in your upper body muscles. The water resistance generated by the swim gloves is smaller than in case of solid hand paddles. Therefore, they are perfect for both swim training and aqua aerobics exercise.

## ALCANO 519-XX

women/men

Size 36-44/45

Alcano flip-flops are made of light and durable dual-density EVA foam. The soft material in the upper part of the shoe ensures high comfort of use, cushioning and good fit of the shoe. The sole made of harder material stabilizes the foot and protects it from uneven surfaces, reducing the risk of slipping. Despite the use of different hardness materials, the shoe consist of one inseparable element, which increases its durability. It is noteworthy that the Alcano flip-flops are made of chlorine-free, degradable materials that do not have the characteristic smell of some slippers and do not leave any marks on the ground.

## PALERMO 501-XX

men

Size: 40-46

Palermo men's flip-flop is a perfect choice both for swimming pool and beach holiday. Made of soft yet durable material Palermo has an antiskid outsole to give a good grip on slippery surfaces and structured footbed. Both the strap and inner sole are made of soft materials for comfort.

# DAKOTA 516-XX

men

Size: 41-46

Slip-on pool shoe Dakota are great for slipping on after swim training sessions or for taking on holiday to wear around the hotel pool or by the beach. Their grooved inner and outer sole provides comfort and grip and is designed so that you will not lose your footing at the swimming pool. High quality EVA Injection material makes Dakota pool shoes extremely light and durable. The upper band is made from a soft quick-dry material that guarantees comfortable fit. Additionally, the soles of Dakota slippers are made of chlorine-free, non-smelling degradable materials that do not leave any marks on the ground.

OPTIC PRO is a professional diving mask with available with optic lenses that offer wide and clear field of vision. Available correction ranges from -1 to -8 and +1,75 to +2,75 diopters. Each lens can be of a different prescription. OPTIC PRO features a stylish double-colored frame and a wide head strap providing superb stability. The gasket of the mask OPTIC features a double seal which makes it almost completely leak proof and allows any water that does seep in to be blown out of the mask even under water.

OPTIC'S gasket and strap are made of soft, elastic, non-toxic and damage resistant translucent Liquid Silicone Rubber (LSR). This material prolongs the life of the mask, increasing its durability and maximising comfort. LSR is highly resistant to UV rays and changing temperatures thanks to which it does not lose elasticity over time.

## COMET - centre snorkel 281

Silicone, profiled mouthpiece  
Modern DRY top  
Bottom exhaust valve  
Silicone corrugated neck  
Packaging: clamshell box

**AQUA SPEED**  
SWIMMING ACCESSORIES

The Comet Snorkel from Aquaspeed was designed to allow you to stop worrying about breathing technique and concentrate entirely on your swim stroke.

It helps you achieve optimal position in the water and free movement, so important when improving your swimming skills. With this snorkel you can swim with perfect stability at any speed using your chosen style.

The Comet can be worn with swim caps and goggles. It has a bottom purge valve to empty water from the snorkel, silicone mouthpiece and adjustable head bracket.

SWIMMING ACCESSORIES

The COMET JUNIOR Snorkel from Aquaspeed was designed to allow swimmer to stop worrying about breathing technique and concentrate entirely on swim stroke. It helps achieve optimal position in the water and free movement, so important when improving one's swimming skills. With this snorkel one can swim with perfect stability at any speed using chosen style. COMET JUNIOR can be worn with swim caps and goggles. It has a bottom purge valve to empty water from the snorkel, silicone mouthpiece and adjustable head bracket. COMET JUNIOR'S main chamber is made from a rigid material for the snorkel to always offer optimal properties during swimming. Additionally, the wide head strap is made from silicone to guarantee comfort and stability during swim training.

SWIMMING ACCESSORIES

**FINS**

# INOX 553

Size: 36/37,38/39,40/41,42/43,44/45,46/47

These modern, comfortable elastic, full foot-pocket fins are designed for snorkeling and easy recreational dives.

They are very easy to put on and take off and fit bare feet perfectly.

The fins have rubber reinforcements on the sides, which increase their lifetime and enhance stability.

Openings, which decrease the load on the fin blade.

A specially formed centre of the fin creates a tunnel, which directs the flow of water to the back, increasing the thrust, swimming speed and decreasing legs fatigue.

SWIMMING ACCESSORIES

# SHORT TRAINING FINS

137-XX

Size: 31/32,33/34,35/36,37/38,39/40  
41/42,43/44,45/46,47/48

Short training fins made of highest quality soft and very flexible silicone material.

Aquaspeed training fins are perfect for all those who intend to improve their swimming technique, lower body strength and durability. Thanks to their design, they allow the swimmer to exercise leg movement very similar to the leg movement performed without any fins. Special reinforcing elements on the sides of the fins which begin at the foot pocket, apart from providing extra durability of the fins, channel water along the blades and reduce vibrations generated by the water flowing along the fins.

Aquaspeed training fins greatly improve the efficiency of the legwork by providing greater thrust and by concentrating more energy on the legs, thus strengthening them.

Aquaspeed training fins are perfect for schools, swim clubs and for individual customers who aim to improve their swimming technique and leg strength in their free time at a swimming pool.

FINS

## VAPOR 724-XX

Size: 28/30,30/32,33/35,36/37,38/39,40/41  
42/43,44/45

These modern, comfortable elastic, closed-heel fins are designed for snorkeling and recreational dives.

VAPOR fins are very easy to put on and take off thanks to the grip tabs on the back of each foot pocket. The used material is very durable makes the foot pocket fit bare feet perfectly. Additionally, the holes in the front sections of the foot pockets allow sand and pebbles, that would otherwise irritate the foot, to leave the foot pocket together with water flowing out of it. The sole of the foot pocket is reinforced to reduce the strain of the feet.

The VAPOR fins have rubber reinforcements on the sides, which greatly increase the elasticity, durability and the lifetime of the fins. They also enhance their stability. Specially formed elastic centres of the fins create tunnels, which channel the flow of water along the blades. This increase the thrust, swimming speed and decrease leg fatigue.

# HYDRO 530-XX

Size: 40/41,42/43,44/45,46/47

Superchannel HYDRO fins are long snorkeling fins with soft full foot pockets and flexible channel-style blades.

These excellent fins use a combination of rigid and soft materials which allow the blade to flex, creating a U shaped central channel that directs the flow of water down the blade, improving propulsion and efficiency.

The blades also feature two traditional lateral channels to reduce leg fatigue. The blade is set at an optimal 20 degrees to maximise thrust. Strong side reinforcements molded directly into the foot pockets help control the flexibility of the blade, adding spring and reducing energy-wasting vibrations.

The fin blade elastomer is precisely molded into the foot pocket to increase performance and efficiency, and help reduce muscle fatigue after prolonged use.

The full foot pocket provides comfort and secure fit. A grip tab on the back of each foot pocket makes it easier to put on and take off the fin.

**AQUA-SPEED**  
SWIMMING ACCESSORIES

## FROG 520-XX

Size: 25-29, 30-34

The Aquaspeed FROG are short training fins for the youngest pool users.

FROG fins are available in two sizes (S 25-29 and M 30-35) and three colour variations. FROG feature comfortable foot pockets made with TPR to prevent chaffing and skin irritation and transparent blade made of light Polypropylene plastic. Those fins will help kids to increase water confidence and will make water experience even more exciting for the little ones. Thanks to their compact size and weight FROG fins are easy to take to pool or beach.

---

## BOUNTY 725-XX

Size: 27-31,32-37

These great snorkeling fins are compact in length, which makes them great for traveling, thanks to reduced bulk and weight. Due to smaller than usual blade size this fin is perfect for snorkeling, easy recreational diving and pool use. The construction of Bounty fin is stable thanks to vented blade which channels water and provides excellent performance when snorkeling. Bounty are soft, flexible, easy to strap and feature adjust open-foot pocket for great comfort (can be used on bare feet or with neoprene shoes). Adjustable foot strap can be used to fine tune the fit and to allow fins to fit over a large range of feet sizes. Made from modern, durable and long lasting materials.
