

## Electro-hydraulic 2-post lift L255.ML

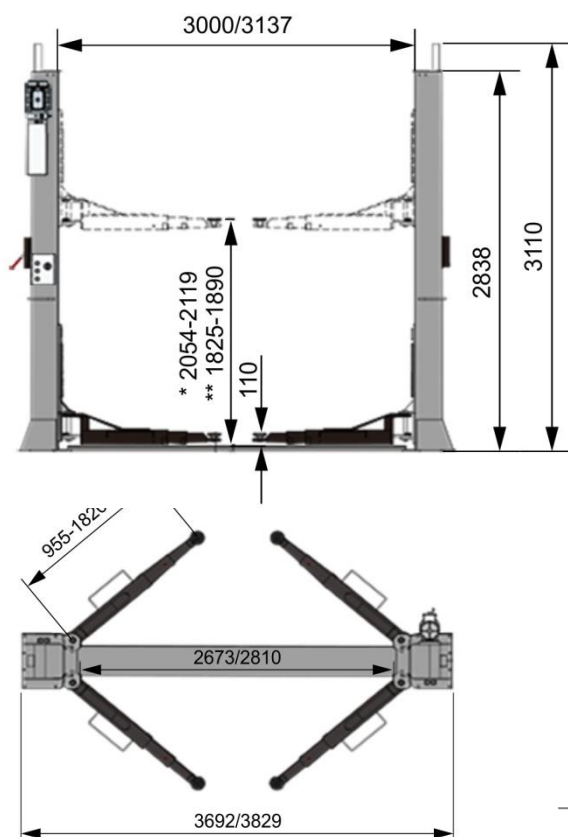

**kg 5500**

### Main Features:

- drive-through plate,
- adjustable supporting pads,
- foot protection guards,
- mechanical safety system,
- synchronization using steel ropes,
- hydraulic safety system,
- 24V control panel.

The **L255.ML** lift is designed for car repair shops servicing SUV's and heavy VAN's. The wide distance between the posts guarantees the convenience of carrying out the necessary service activities. The super symmetrical design and 3-stage front and rear arms guarantee comfortable work on long delivery vehicles.

### Technical data:

Power supply	400 V ; 50 Hz; 3 Ph
Motor power	3,0 kW
Lifting capacity	5500 kg
Lifting time	55 s
Max lifting height: * with height extension ** without height extension	* 2054-2119 mm ** 1825-1890 mm
Max arms height in locked position: - with height extension - without height extension	2009-2074 mm 1780-1845 mm
Min height	110 mm
Total height	3110 mm
Total width	3692/3829 mm
Distance between columns	3000/3137 mm
Front/Rear arm length	955-1820 mm
Gross weight	996 kg
