

### INSTRUCTION REFERS TO MODELS:

ERGOWORK chair LK Special BLCPT Black, ERGOWORK chair PRO Special BLCPT Black.

### LIST OF INCLUDED PARTS:

Before the assembly, please make sure that all parts specified below are included in a package:

1. Backrest, metal plate, small knob - 1 set
2. Seat with a metal frame - 1 set (for chair type „Plus”, armrests may be already fixed to the seat)
3. Mechanism with a long knob - 1 set
4. Column - 1 piece
5. Column extension - 1 piece
6. Footrest - 1 piece
7. Column cover – short (A) and long (B) - 2 pieces
8. A five branched base - 1 piece
9. Glides - 5 pieces

### ASSEMBLY INSTRUCTIONS

1. Fix glides (1) into the five branched base (2).  
ATTENTION! Glides may be already fixed in the five branched base.
2. Fix the column extension (3A) into the base hole (2).
3. Place the column cover on the column extension (3A).
4. Fix the footrest (4) on the column extension (3A).  
ATTENTION!  
Mounting a footrest, the chrome-plated rim must be placed on 3-armed, black bracket (on the top).
5. Fix the column (3B) into the column extension hole (3A).
6. Insert the seat-backrest fixing element (6) into the seat sheet's guideways (5) and fix it with a longer knob.
7. Unscrew the smaller knob from the backrest (7), place the seat-backrest fixing element (6) and screw the knob once again.
8. Backrest (7) mounted with a seat (5) place on the column pin (3B).
9. Adjust the seat's and backrest's height and fix the adjusting screws.
