## Made by Kronospan

Dependable. Durable. Close to our customers. For us 'being close to you' is not simply a geographical concept but an integral part of our philosophy. Close to you in our way of thinking, in discernment and in understanding your needs. Which means we are always there for you.

Strzelce Opolskie, Poland

## Facts & figures

- More than 14,000 employees at over 40 manufacturing and distribution sites worldwide – an international outlook with a strong local presence.
- Our products are popular in more than 90 countries around the world.

Over 120 years in the business. More than 40 manufacturing and distribution sites around the world. Satisfied customers in more than 90 countries. But still both feet firmly on the ground.

What began in an Austrian sawmill back in 1897 has since become a global success story. As the world's leading manufacturer of laminate flooring, we have established our reputation in over 90 countries around the world. This is due in no small part to our pursuit of perfection. Because we always want to be better than our competitors. We know exactly what our customers want.

That's why we leave nothing to chance. We make everything ourselves. Which includes manufacturing the coreboards, making the adhesive and producing the impregnates – vertical integration that gives us total control over the entire manufacturing process. And over every single detail. You can see the result in our floors. You can even feel it. Because thanks to our innovation, we have succeeded

in getting closer and closer to nature. With all the advantages that a laminate floor offers, such as easy maintenance, all-purpose application and the ingenious click system for easy installation. It couldn't be simpler. And yet none of this would have been possible without our years of experience and extensive research. Because we know what our customers want.

## 117 designs. From classic to modern. So there will always be a floor that is to your taste.

Choose from an incredible variety of designs that are the perfect match for any interior. We currently have 117 in our product range. One is bound to be right for you.

We are constantly coming up with new ideas that keep us one step ahead of the latest fashion. To do this, we have a team of dedicated designers who not only track current trends but also anticipate them. They know exactly what will get customers excited. With the whole world of design and comfort to their feet. Superior design for us means sleek appearance coupled with a sensual feel. Whether classical or modern, opulent or puristic, Krono

Original® offers top-quality products to turn even the simplest of rooms into a unique, cosy living space.

But there is more to design than just appearance. Substance also counts. That's why we are constantly developing our products to create even more comfortable surroundings and provide greater comfort under foot. An antibacterial coating that inhibits bacteria growth. A robust surface that resists wear and tear. Better protection against micro-scratches which can be caused by mechanical stress. For lasting enjoyment of your floors. And for a good homely feeling.

### Natural look

...plus all the practical surface properties that you expect from a laminate floor. Easy to maintain. Easy to install. Protection against micro-scratches. And an anti-bacterial coating. Modern methods make all of this possible while modern technology enhances the visuals. Krono Original® – the floors of the future.

design and surface textures

You'll love our floors. Easy installation, A.B.C Anti Bacterial Coating, Microscratch Protect surface or Authentic Embossed texture are just a few of the benefits of Krono Original® floors.

K061 Rusty Barnwood

## Krono Original® floors are tested, certified and full of character.

**Guarantee** All Krono Original® laminate floors are put through a series of rigorous tests in order to comply with international quality standards, which is why we grant an extensive guarantee with every product. You can be rest assured that, whatever range you choose, it's going to be easy to maintain and will give you enjoyment for many years to come.

**Stain and imprint resistant** Whatever you might spill, be it red wine, oil or coffee, don't panic; it can be easily removed. Krono Original® is also abrasion resilient, robust and durable.

**Twin Clic** The Krono Original® Twin Clic system has been specifically designed to make fitting your laminate flooring as easy and hassle free as possible. The Clic and groove profiles allow individual panels to be joined together quickly with minimal tools or complications.

**1clic2go** Even in hard to reach places like corners, doors and under radiators, the ingenious "1clic2go" system makes installing Krono Original® floors simpler and faster than ever. The tongue & groove joint along the length of the panel is placed in position from above and fixed flush with the adjoining panel. The panels are then securely interlocked as the patented "1clic2go" beading latches into position with an audible click. Quick. Easy. Secure.

**drop loc** The Krono Original® "Drop Loc" system is a classic locking system with clickable short and long edges. The tongue & groove joint along the length of the panel is placed in position from above. It is an easy installation with minimal tools.

**Multi Patent Indemnity** Enjoy 100% security with multiple patent protection for all our products! In addition to the Kronoflooring patents, this Multi Patent Indemnity certificate provides extensive protective rights for VÄLINGE INNOVATION AB international and a choice of UNILIN patents worldwide. This involves assured, unrestricted product use of the glue-free click system for the trade.

**Guaranteed Anti-Static** We've all experienced static at some stage and it's pretty unpleasant. No doubt a 'shock' has caused you some discomfort when touching a door handle or using an electrical appliance in your home, so you'll be pleased to hear that help is at hand. Krono Original® Anti-Static floors provide complete protection against unpleasant shocks. The Anti-Static is built-in and guaranteed for the life of the floor. In addition, these floors do not attract dust and dirt in the conventional way and are therefore incredibly easy to keep clean.

**A.B.C. Anti Bacterial Coating** Keeping your flooring as clean and free of bacteria as possible is naturally a major concern. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result. A Krono Original® A.B.C. Anti Bacterial Coating inhibits the growth of bacteria on your flooring and provides you with the peace-of-mind that comes from a healthy home environment.

**Authentic Embossed** The high quality Authentic Embossed structures feature elegant contrasting and a thrilling multi-gloss effect that emphasises the depth of the structure with matt and gloss elements that reflect the light differently. The synchronous pores follow the grain of the decor, meaning they flawlessly mimic the character of natural wood.

**Handscraped** A breathtakingly elegant and realistic oiled wood finish, with gentle irregular undulations, inspired by traditional Amish craftsmanship. The soft matt surface replicates the hardwood area of solid flooring gently polished over time due to footfall. Meanwhile the deep matt pores are highlighted with glossy accents.

**Microscratch Protect** This especially durable surface will protect your floors even better against microscratches which can occur through heavy use. With Microscratch Protect, your flooring will have the best possible protection against everyday wear and tear.

**Eco Friendly** All Krono Original® floors are environmentally friendly as standard made of 95% wood sourced from sustainably managed forests. What's more, the entire production chain – from raw materials to the finished product – has been certified and is regularly inspected by independent experts, ensuring peace of mind for you – and protection of our environment.

## Charming narrow planks.

Vintage Narrow provides the ideal stage for vintage interior design; found pieces, design classics and accessories from different eras need an elegant, yet modest platform to really work the room. The handy floorboard format with a matt, hand-scraped surface and a synchronous structure makes this flooring really special. Install on its own or in stylish combination with Vintage Classic for down-to-earth elegance with timeless charm.

## A timeless combination.

A tasteful fusion of old and new, Krono Original® Vintage Classic flooring provides the perfect foundation for a thrilling juxtaposition of tradition and modernity. The popular vintage style has long been in fashion, because it embodies the precious traces of time, revealing their beauty in partly hand-finished aesthetics.

Vintage Classic and Vintage Narrow flooring can look wonderful when used together in the same room, offering a stylish appearance in the spirit of the times.

# no problem

Krono Original® floors are a match for the everyday challenges of modern family life. The authentic look of real stone or wood with the wipe-clean convenience of a laminate. No wonder it's everyone's favourite.

K060 Alabaster Barnwood

Durable, hygienic,  
stain-resistant

"A low-maintenance floor is important for us, because our home can be a bit chaotic. Who really likes housework? I like things that make life a little easier – not hours of cleaning. Thanks to my Krono Original® floor, I can relax, as even tough stains like red wine, coffee, fruit stains and nail polish can be removed with ease. Just one wipe and it's clean! What's more, my floor is abrasion-resistant and incredibly durable. My verdict: it's the perfect choice for everyday living!"

## Striking floorboard aesthetics.

The Variostep Classic collection not only satisfies your demand for unmatched quality and easy installation. Its V-grooves also create the cosy look of a genuine solid hardwood floor. The grooves give your floor a unique and charming solid plank appearance as well as creating a sense of space. So if you're looking to give your room a breathtaking new lease of life, you certainly won't be disappointed.

# Healthy living - certified.

Only wood from sustainably managed forests. Resource-efficient production.  
All of this amounts to an expression of a love that goes beyond numerical values:  
our love of nature.

K267 Enchanted Oak

"I won't compromise my principles. When I buy something, I want to be sure it comes from sustainable sources. So I checked out Krono Original® floorings and found out they use timber from responsibly managed forests. I trust them because, being one of the world's leading manufacturers of laminate flooring, they have a sustainability policy which commits them to reducing their impact on the environment. Which means I can update my home with renewable materials."

Wood is our world. And wood is natural. Consequently, we are at one with nature. In our production and in our philosophy. Because we want to give back to nature what it gives us in quality of life. That's why we are careful to only use wood from sustainably managed forests. With completely traceable origin. In our manufacturing processes too, the environment is always foremost in our mind. Our objective is to keep waste from production as low as possible – and indeed throughout the entire product life cycle.

We achieve a high recycling rate within the manufacturing process or alternatively use waste material to generate carbon-neutral energy for our production facilities. Our water and energy consumption is constantly monitored. This enables us to quickly identify potential savings and of course implement them in an environmentally friendly way.

This affinity for nature carries over into our products. Our floors are not only environmentally friendly, but also contribute to a healthy living environment. We are committed to using low emission bonding agents that contribute to the overall healthy balance of our products. With certified E1 quality. Quite naturally!

## anti bacterial coating – A.B.C.

You naturally want to keep your floor as clean and germ-free as possible. That's why Krono Original® applies an anti bacterial coating to all its flooring that inhibits bacteria growth. Together with regular cleaning, you can enjoy everyday life without worrying about your loved ones' health or well-being.

K059 Copperhead Oak

Anti bacterial coating – A.B.C.

“Cleanliness is important, especially if you’ve got little ones or pets running around. That’s why I chose Krono Original® with an anti bacterial coating. We can’t see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result. A.B.C. does not allow for germs to grow, so I can rest assured my family and I’m protected from any nasty surprises.”
